Juan Sterren.

July 23, 1991

SOFTWARE DEVELOPER
(Full Stack - JavaScript Developer)

ABOUT ME

Advanced Student of Senior Technician in Software Development student, 2016 I began to develop my first projects as a frontend developer in a dependency relationship, from 2017 to 2021 my main work activities did not include software development, even so, during those years I took several courses, develop websites for private clients and carry out the development of a claims system for municipalities and communes in an integral way using technologies such as Symfony (PHP), Angular 7 (Typescript) and MySQL.
